Collections of Pianoforte Music.

Persons who examine this page with care will notice that it contains: first, in its "bound volumes," the greater part of the really good and popular Piano Music, easy or of medium difficulty, that has appeared during the last fifty years; second, the most approved and enduring works of the great masters of Piano Music. It has been said that the good die young. The reverse is true in music, and it would be hard to number the crowds and multitudes of Piano pieces of indifferent merit that have died early. The pieces contained in the books here mentioned, however, live. With them it is the "survival of the fittest."

Please notice that very difficult or concert music is not found in the "bound volumes."

BACH'S WELL TEMPERED CLAVICHORD, ALSO CALLED BACH'S 48 PRELUDES AND FUGUES. Price in Cloth, $4.50.

It may seem strange that a work made for the Clavichord should be an excellent book for present study on the Piano. But so it is. Father Bach was no trifler, and those who would play his music must study, and study hard.

CHOPIN'S MAZURKAS AND WALTZES. Cloth, $5.00. Chopin's Waltzes, Peters' Edition, Paper, 50 cents; Chopin's Waltzes, Peters' Edition, Cloth, $1.25.

MENDELSSOHN'S SONGS WITHOUT WORDS. Such pieces as these were impossible in the days of the original Pianos. They were among the first fitted to the *singing* quality of the modern instrument, and are considered by some to be the most characteristic works of the great composer.
